

DYNAMIC STRETCH

Dynamic Stretch 0-0-18-6 is a premium liquid potassium and sulfur fertilizer. Dynamic Stretch is a versatile premium potassium additive that can be utilized as a foliar fertilizer and also blended with 10-34-0, UAN and in-furrow applications. Dynamic Stretch contains sulfur, potassium acetate and High Dextrose/Fructose sugar.

Dynamic Stretch offers:

- Aids in stronger stalks and stems
- Increases plant nutrient solubility
- Superior plant safety at recommended rates
- High source of carbon

In-Furrow Recommendations:

Field Corn: 1 Gallon Max Rate (Row width, CEC and OM% dependent)

Foliar Feeding Guidelines:

Field Corn: 1-2 Gallons any time after 5th leaf collar.

Soybeans: 1-3 Gallons any time after 3rd trifoliolate to 85% pod set.

UAN Mixing Guidelines:

1:8 Ratio when mixing 28-0-0 with Dynamic Stretch

1:10 Ratio when mixing 32-0-0- with Dynamic Stretch

H₂O is always recommended when high Nitric Acid is suspected in UAN

GUARANTEED ANALYSIS

Total Nitrogen (N).....	0.0%
Phosphate (P ₂ O ₅).....	0.0%
Potassium (K ₂ O).....	18.0%
Sulfur (S).....	6.0%

Derived from: potassium thiosulfate, potassium acetate, also contains sugar

Bulk density is 10.58 #/gallon at 68° F - pH 7.0 – 8.0
